Infrastructure & Resources

The development and conversion work is carried out at our state of the art computer center. This development center is equipped with latest technology Computers, Local Intranet, Printers, Scanners and Internet facility. The new communication network also enables us to provide quick & prompt service to our customers.

Manpower

The heart of our company is its manpower. A team of highly qualified and motivated professionals is working hard to present the best output in minimum time. The development team is supported by a team of marketing personals & Customer Support Executives, which provides the valuable feedback to the management of the company. We are having efficient and highly qualify staff and always we conduct in-house training to upgrade our knowledge and new technologies, which help our customers in their functionality.

Expertise
We at BPN always try to provide new technologies to our customers. We have developed projects using VB.NET, Asp.NET, PHP, Ajax, J Query, Bootstrap V.3.1, HTML, HTML5, XHTML, JavaScript, CSS3, SQL Server.

The Mission
Our mission is to maximize the business success of our customers through the installation, maintenance, and support of superior customized management software solutions.

Why Branding Professionals Network:

1. We listen: We believe that an important part of us is listening to our clients and understanding their business needs, throughout the entire process, ensuring the final output meets their particular requirements perfectly.

2. Friendly, Personable yet Professional Service: 100% of our business is from word-of-mouth and repeat business. You'll also get the experience of people that have been building websites for over several years.

3. No hidden fees and Value for money: We tell you the costs upfront with our detailed proposals we want all of us to have the same expectations for your project. Our prices give consistently good value with no hourly rate, flexible pricing options, and no hidden charges. Full details and final prices are presented prior to the work commencing.

4. We take full advantage of today's technology: Technology is a wonderful thing and it allows us to successfully work remotely with clients across the country. That means we don't have to pay for a fancy office, and neither do you.

5. We Want to Become Your Long-Term Partner: We enjoy building long-term relationships with our clients.

6. We do all of our own design and development work in-house: Since we don't contract any part of our services we don't have to pay a middleman, so we can pass on lower rates to you!

7. Our team is dedicated to providing polished, working, and intuitive solutions to any problem that our clients need to overcome.
